Dedham Vale
National
Landscape
& Stour Valley

To increase wildlife in our village and the Dedham Vale National Landscape and Stour Valley Glemsford Parish Council have agreed to join the Wilder Together Villages. We will be part of a network of Wilder Together villages and towns throughout the Stour Valley in Suffolk and Essex where nature is welcomed and supported on the doorstep.

This means we want:

- to map wildlife habitats, open spaces and recreational grounds for wildlife and people.
- To re-connect, restore and manage wild areas in both public and private land to benefit wildlife and people.
- to create a network of wild areas, maintained and created by residents on both public and private land (including gardens), which benefit wildlife and people.
- to support local people to take action for wildlife to create wild spaces, wild streets and gardens.
- to ensure where people live in the parish, they can access the natural world.
- volunteers in our parish to become Wilder Together champions who will promote wildlife gardening and support local action. (Training will be given)
- to record wildlife so we have a baseline of data from which to start.

To find out more and how you can get involved to make our parish wilder please contact:

This initiative is a joint project between Suffolk and Essex Wildlife Trusts, the RSPB Flatford Wildlife Garden and the Dedham Vale National Landscape and Stour Valley. All these conservation organisations are passionate about nature recovery and want to see a Wilder landscape for nature to thrive.
